456.1  
8-19-46

DISPOSITION OF RECORDS - DEPARTMENTAL AND FIELD OFFICES: On page 1, par. I, line 2, delete: "(except Field Service Branch)", and change the distribution at bottom of page 1 to "A, B." This Instruction currently applies to PMA State Offices, and copies are herewith distributed to Code A-31. Change Table of Contents accordingly. Distribution: A, B.

FORM AD-548  
8-20-46

RECORDS INVENTORY, APPRAISAL AND DISPOSITION WORK SHEET: Change distribution at bottom of page to "A, B", and change Table of Contents accordingly. This form currently is for use by PMA State Offices, and copies are herewith distributed to Code A-31. Distribution: A, B.

OBsolete FORMS  
SUPPLEMENT 2  
5-26-48

On page 5, the reference to AD-532 is in error in two respects: (1) AD-532 with overprinted column headings and AD-532 with blank column headings were both dated 11-8-45. The AD-532 with overprinted column headings is obsolete and is not to be used. The AD-532 with blank column headings is a current form for use in accordance with PMA Instruction 139.1. (2) PMA-418 does not supersede AD-532. PMA-418 and the AD-532 with blank column headings are both current forms. Distribution: A, B.

ADMINISTRATIVE NOTICE NO. 98

EXCEPTED APPOINTMENTS - EMPLOYEES OF STATE GOVERNMENTS,  
COLLEGES OR UNIVERSITIES - ON EXCHANGE BASIS

A recent addition to the Department of Agriculture Section of Schedule A, Civil Service Regulation 6.4 reads as follows:

A(9)(xxxiv) Not to exceed 25 professional, scientific or technical positions in grade P-2 or higher to be filled on an exchange basis by qualified employees on the rolls of State Governments, Colleges, or Universities, for a limited period not to exceed one year.

By a memorandum dated May 18, 1948, from the Acting Director of Personnel, the Production and Marketing Administration is permitted to fill seven positions in accordance with this Schedule A item. These appointments are excepted from the competitive service and may be made without approval of the Civil Service Commission.

Detailed instructions are not yet available as to the manner in which the exchange of employees would be accomplished. If any Branch or staff office in PMA is interested in this type of exchange employment, the Personnel Division should be given full information on the proposal. The Personnel Division will then work out the details with the Office of Personnel.

COMMODITIES FOR WHICH BRANCHES HAVE JOINT RESPONSIBILITY  
FOR OTHER THAN INSPECTION PURPOSES

---

<u>Commodity</u>	<u>Branch Responsibility 1/</u>
1. Animal fats, edible or inedible, raw or unrendered, rendered or otherwise prepared	The IS Branch is responsible for animal fats while in the packing plant with the FO Branch assuming responsibility for the commodity in its various forms, outside the packing plant.
2. Cottonseed and cotton linters	The CN Branch has responsibility for cottonseed and cotton linters standardization, grading and market news services, and inspection on cottonseed. The formulation of programs for these commodities is the responsibility of the FO Branch.
3. Dehydrated and Dry Soups	The FV Branch is responsible for dehydrated soups. Dry powder soups composed entirely of grain products, such as dry beans, peas, oats, barley, wheat, or rice, or soybean products to which seasoning including onions have been added, are handled by the GR Branch. Other dry powder soups may be handled by the GR Branch when arranged with the FV Branch. Where commodities assigned to other branches are used in the manufacture of dehydrated soups, the FV Branch shall consult with the appropriate branches.
4. Flaxseed and Soybeans	The FO Branch has program responsibility for these commodities, including oil. The grading, standardization, inspection and market news functions are the responsibility of the GR Branch.
5. Lard and Tallow	The FO Branch is responsible for making original allocations of lard and tallow after consultation with the IS Branch on the supply situation. Based upon these allocations, the IS Branch

---

<u>Commodity</u>	<u>Branch Responsibility 1/</u>
5. Lard and Tallow (continued)	is responsible for the purchase of these commodities to meet the needs as outlined in the FO Branch allocations report. After purchase the FO Branch solely is responsible for specific allocation of available lard and tallow to claimants. The FO Branch is also responsible for compiling data and reports concerning the allocations of lard and tallow.
6. Olive oil	The function and responsibility for developing standards for olive oil and the inspection work incident thereto are assigned to the FV Branch. The FO Branch has responsibility for formulation of programs on olive oil, including allocations and import control.
7. Peanuts, peanut butter and oil	The FO Branch has responsibility for peanuts, peanut butter and oil, and the formulation of programs for these commodities. The standardization and grading work, inspection on other than farmers' stock and market news services are functions of the FV Branch. The grading and inspection work on farmers' stock peanuts is the responsibility of the FO Branch. Inspection of all peanut oil is performed upon request by the GR Branch.
